NEW RANGELEY PHOTOGRAPHER TO EXHIBIT AT THEATER GALLERY

RANGELEY - The Rangeley Friends of the Arts is hosting a new exhibit - Cat Nutt – Photographer: Love and Adventure, from February 16 – May 1 at the Lakeside Contemporary Art Gallery on Main Street in Rangeley. An Opening Reception to meet the artist will be held on February 16, 2019, from 5:00 – 6:30 PM, where you may enjoy complimentary snacks and a cash bar (beer/wine). The opening is in conjunction with the opening of an original musical revue at the theater: "Serendipity."

Cat's ardor for photography was undeniably passed down by both of her parents, who bought her first professional camera, taught her many perspectives and always encouraged her numerous adventures to chase her potential. What started as hobbies and dreams quickly blossomed into a professional creative career. In 2009 She attended Lyon College with a generous art scholarship to study both Art and Psychology, hoping to not only see the world but purely experience it and translate that into her own media.

Soon after, Cat's Eye Studio was born. Since then she has been commissioned for Weddings, Modeling, Travel Photography and Fine Art all across the country. She has expanded her horizons by incorporating an active shooting style with genuine gesture and moody tones. Cat now specializes in Lifestyle photography. She is currently showcasing her new project called "Love and Adventure" where she focuses on her fondness for her home state and the many adventures on which life has taken her.

As a new resident of Rangeley, Maine, she hopes to continue growing within the community and aspires to continue her adventures all across her native state and the globe.
